Study IQ

Overview

Aiding people to excel in government exams by honing their skills is the ultimate goal of Study IQ for revolutionizing the education sector. Hence to make their digital journey worthwhile, Antino assisted Study IQ in revamping their Android application with efficient solutions.

"Study IQ Is Backed By India's Leading Government Job Preparation Platform, Adda247."

Challenges

- Implementing Truecaller SDK.
- Incorporating Ads.
- Redesigning UI/UX of the application.
- Constituting clean architecture.

Technologies Used

- Android
- Kotlin
- XML
- Jetpack Compose

Solutions

- Integrated third-party API for smooth implementation of Truecaller SDK.
- Enriched the app by using DFP script to incorporate Ads within the app to notify users.
- Ensuring UI/UX design beyond merely being visually appealing to deliver a valuable user experience with Jetpack Compose.
- Refactored the data based on the field functionality for implementing clean architecture.
